

Vitalii Stefanchak

Senior Java Developer

 trozzato@gmail.com

 0682080372

 Chernivtsi, Ukraine

Summary

Result-driven and highly motivated Java Software Engineer with experience in developing new software solutions and supporting existing ones. Working on a variety of projects with diverse teams from Europe and the US, and having strong interpersonal skills, as well as the ability to quickly adapt to a new environment, ensures good communication with clients and team members and results in delivering high-quality work on time and successful project outcomes.

Good knowledge of web application development using methodologies like Agile/Scrum. Gained expertise in a range of backend technologies, including Spring, Hibernate, microservices, Docker, various databases, and clouds. Hands-on experience with HTML, CSS, JS, and Angular. Committed to staying up-to-date with the latest developments in the field, and constantly seeking out new challenges to grow as a developer.

Professional Skills

Java	Spring	Spring AOP
Spring Data	Spring Cache	Spring Boot
PostgreSQL	MySQL	SQLServer
Hibernate	LiquiBase	Redis
ElasticSearch	Git	Maven
Gradle	Docker	Kubernetes
AWS EC2	AWS SQS	AWS EKS
AWS S3	AWS RDS	GCP PubSub
GCP CF	GitHub	MapStruct
JUnit	Mockito	Selenium
Jmeter	VisualVM	Swagger
REST	GraphQL	WebSocket
Ubuntu	Windows	Jira
HTML	CSS	JS

Soft skills

Time management	Communication	Persistence
Problem solving	Colaboration	Empathy

Work experience

InventorSoft

Senior Java Developer

01/2020 - present

- Worked closely with the development team under the Agile (Scrum) methodology to deliver high-quality software.
- Implemented new business requirements by developing new modules from scratch based on the Spring framework.
- Participated in support activities, investigated and resolved issues, and implemented new technical solutions.
- Wrote clean and fully covered unit and integration tests to ensure the quality of the software.
- Configured CI/CD processes to automate the deployment of the application and ensure its continuous integration and delivery.
- Maintained the server to ensure the stability and security of the application.
- Took part in continuous releases of projects on time, meeting client expectations.
- Refactored source code which helped in a project's development speed and efficiency.
- Conducted code reviews and provided constructive feedback to team members.
- Frequently updated project's dependencies to the latest versions.
- Optimized the performance of an application by reducing database hits, adding cache, and constantly monitoring execution time during development.

Education

**Chernivtsi National 'Jury
Fedcovich' University**

2017 - 2021

Bachelor's degree at Computer Software Engineering

Certificates

2019

Java courses at Inventorsoft
